20:21:00 GMT Basic design of a
fluidized bed gasifier for rice
husk on ... - Introduction.
Circulating fluidized bed is a
relatively new technology with
the ability to achieve lower
emission of pollutants. Extensive
research has been conducted on
this technology for the past 10
years because pollution in the
world is getting more serious by
the day and clean practice will be
very crucial for the sustainability
of the earth. Sun, 15 Apr 2018
